cybersecurity and RGPD.

Governmental objectives

7 M

public charging points
until 2030 & 17 M
electric vehicles

A market

Of many opportunities

90% of the charging sessions happen at home or at work

SMEs and
medium-sized
companies in
France

=

3,9 million & 3,6 million
employees

16 million
buildings

36 million
multi-family housing
units in 2021

open-air hotels

France :
850 000
pitches

Hotels

Ile de France :
157 319 rooms,
of which 84 000 are in
Paris

Pays de la Loire :
24 653 chambres

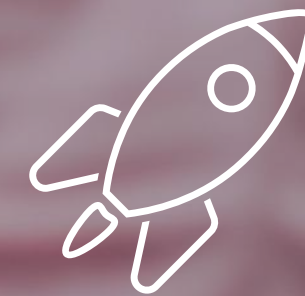

**500 000 charging points
within
5 years**

Our goal

Becoming **the main provider**
For commuting by becoming the
electromobilists **daily ally**

A **Smooth and
pleasant** charging
experience

**1 parking space
=
1 Sparklin socket**

*Home – work place, 75% of the people drive less than 50 km a day

A complete and smart solution

For a smooth and safe eMobility

Sparklin Protocol

Sparklin Manager

Sparklin App

Our products And accessories

SPARKLIN SOCKET

-
Slow charge (3.7kW) plug-in for secure charging at shared parking locations. Access is restricted to authorized users who can pay via their Sparklin App.

It is a communicating system with a complete ecosystem consisting of the Sparklin User and Installer App and the Sparklin Manager.

Coming soon: the light grey Sparklin socket. In sunny and hot areas, choose the grey socket.

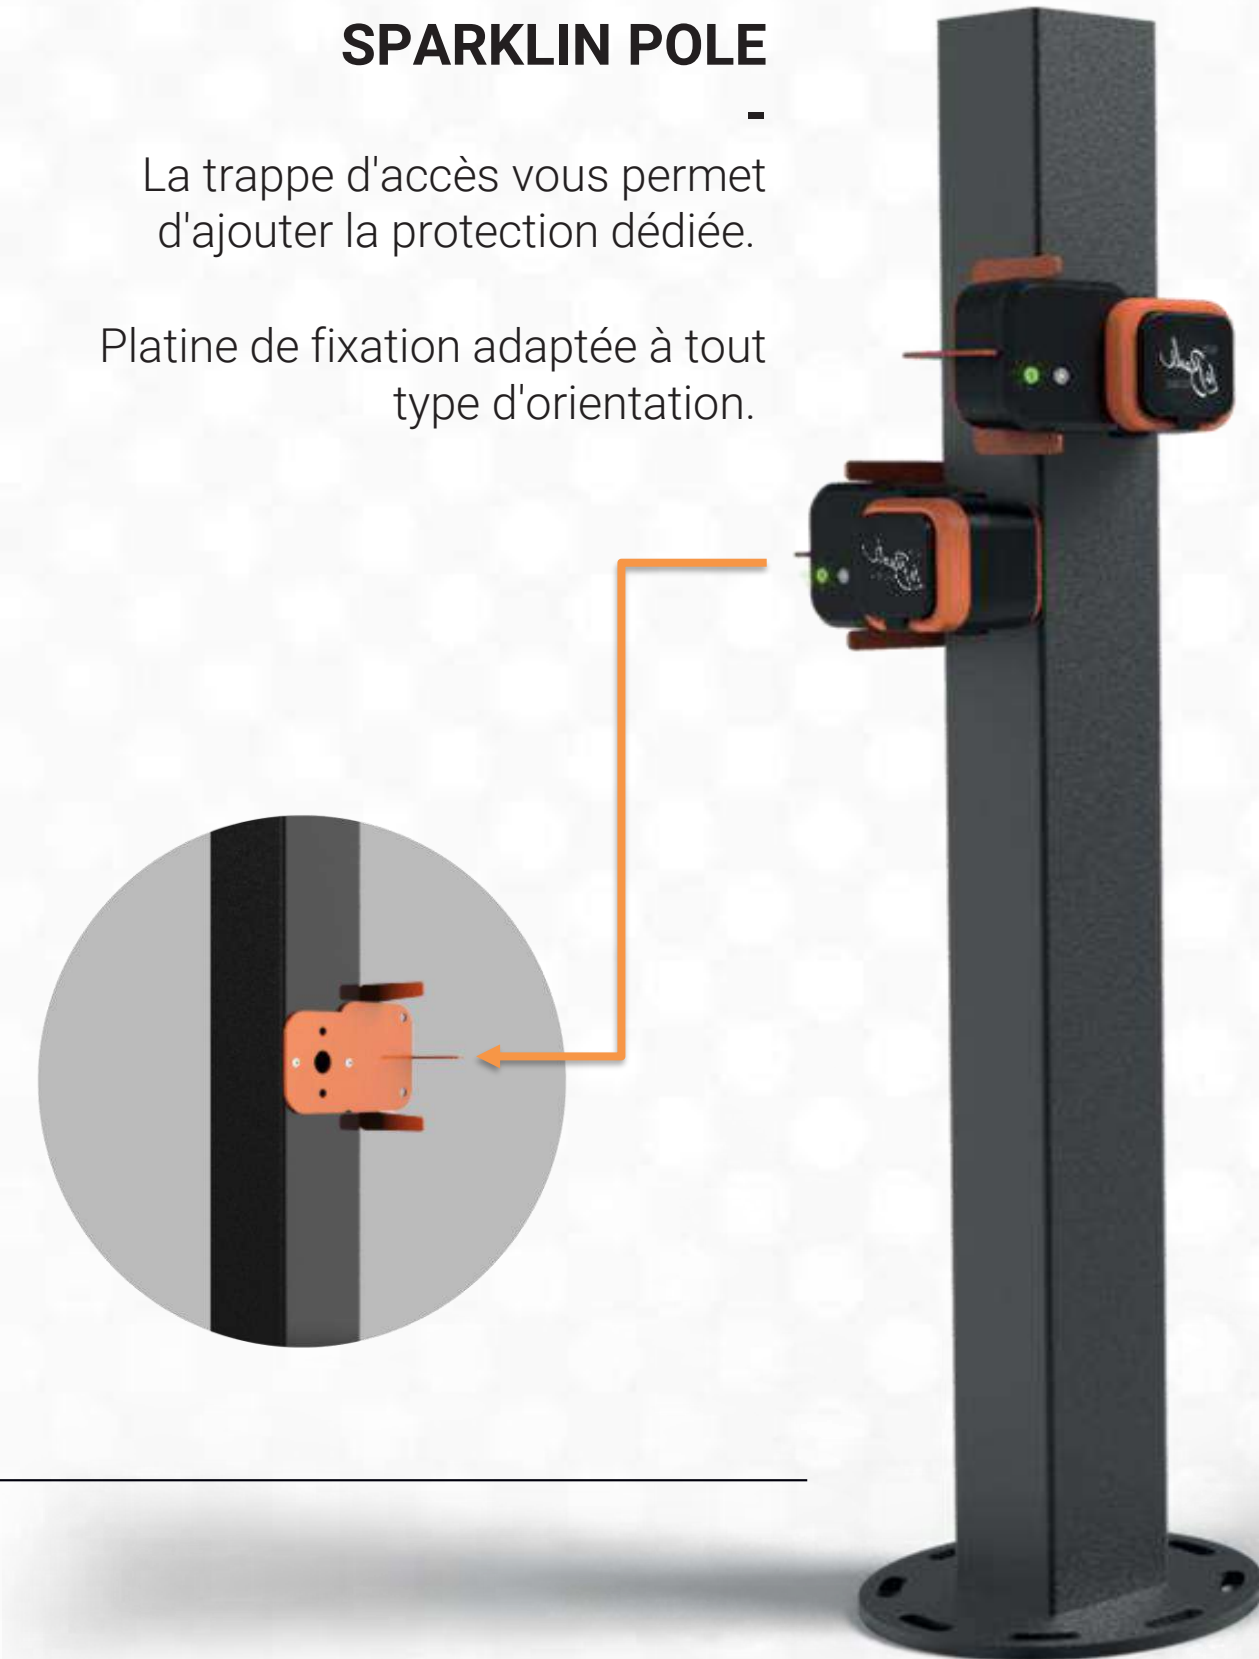

SPARKLIN POLE

-
La trappe d'accès vous permet d'ajouter la protection dédiée.

Platine de fixation adaptée à tout type d'orientation.

PROTECTION PLATE

-
From IK08 to IK10.

Sparklin socket

Domestic – connected – reinforced

REINFORCED TYPE E SOCKET

-
Single phase socket, 230V / 16A strengthened socket outlet 2P+T (mode 3 socket).

NFC 61 314 compliant

3x4 mm²

Protection with an RCBO.

SLOW CHARGING

-
16A, 3.7 kW, 230 V

WALL MOUNTING

-
recommended installation height: between 0,80m up to 1,20 m

WIFI & LTE-M (5G Ready)

-
The smart socket gathers all the data and sends it via WiFi or LTE-M.

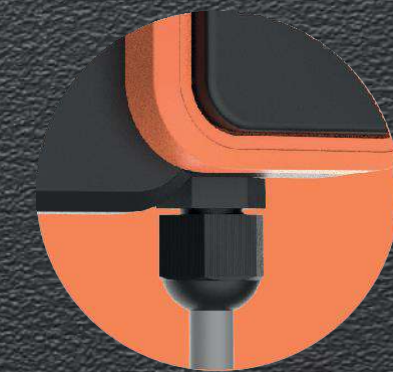

enedis

4,76/5 ★★★★★

Satisfaction survey

IP66 & IK08 HOUSING

-
Our housing is waterproof and highly resistant, for outdoor and indoor installations.

FEEDBACK

-
Discover the status of your plug thanks to its LED lights.

Monitor your sockets

In real time

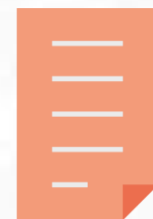

Your subscription **for free the 1st year**
then 4 € 99 HT / month /socket

Add you users, they are the only ones that can use the sockets.

Freely set the cost

Bill or reimburse your users

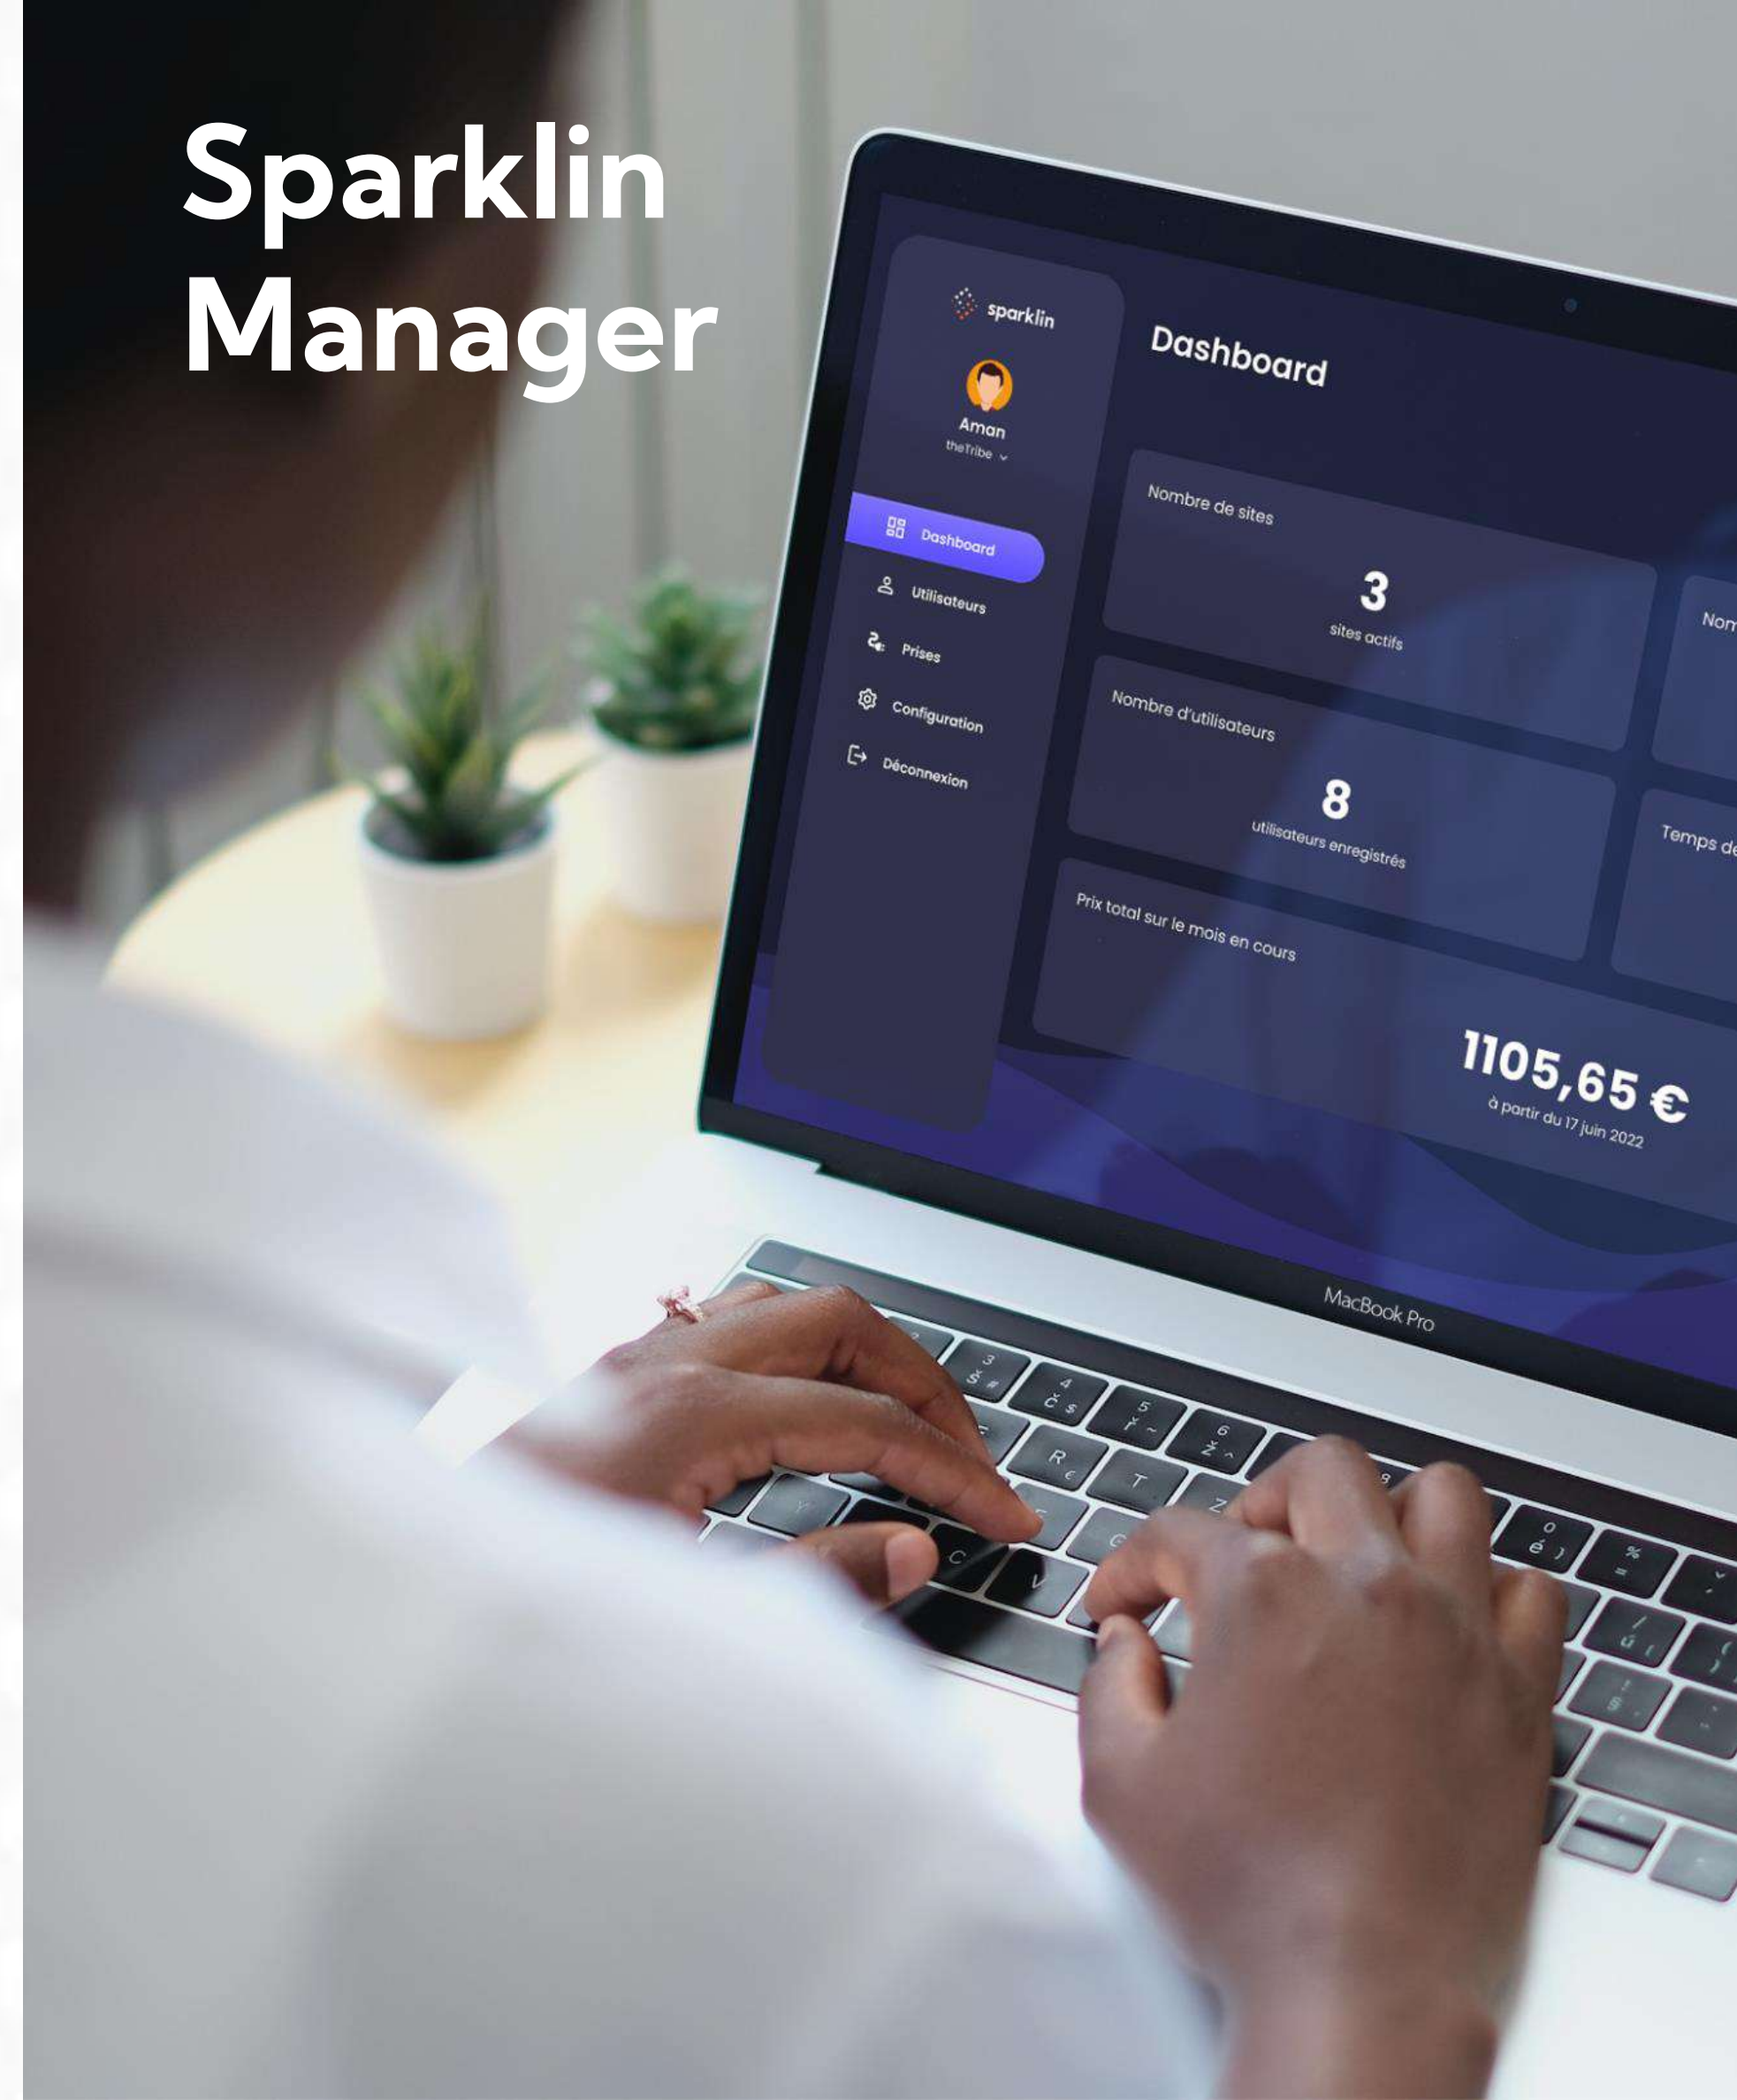

Or activate card payment

Check on your plugs and their status

YOU are the boss!

Sparklin Manager

Recharge your car

in a couple clicks

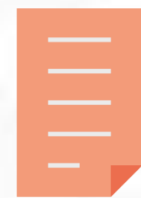

If needed, add your credit card once

Select an available Sparklin socket in your community

Plan your Charging schedule In advance

Find your charging sessions In your history And download you expense report

Who would have thought slow charging would only take 5 seconds?

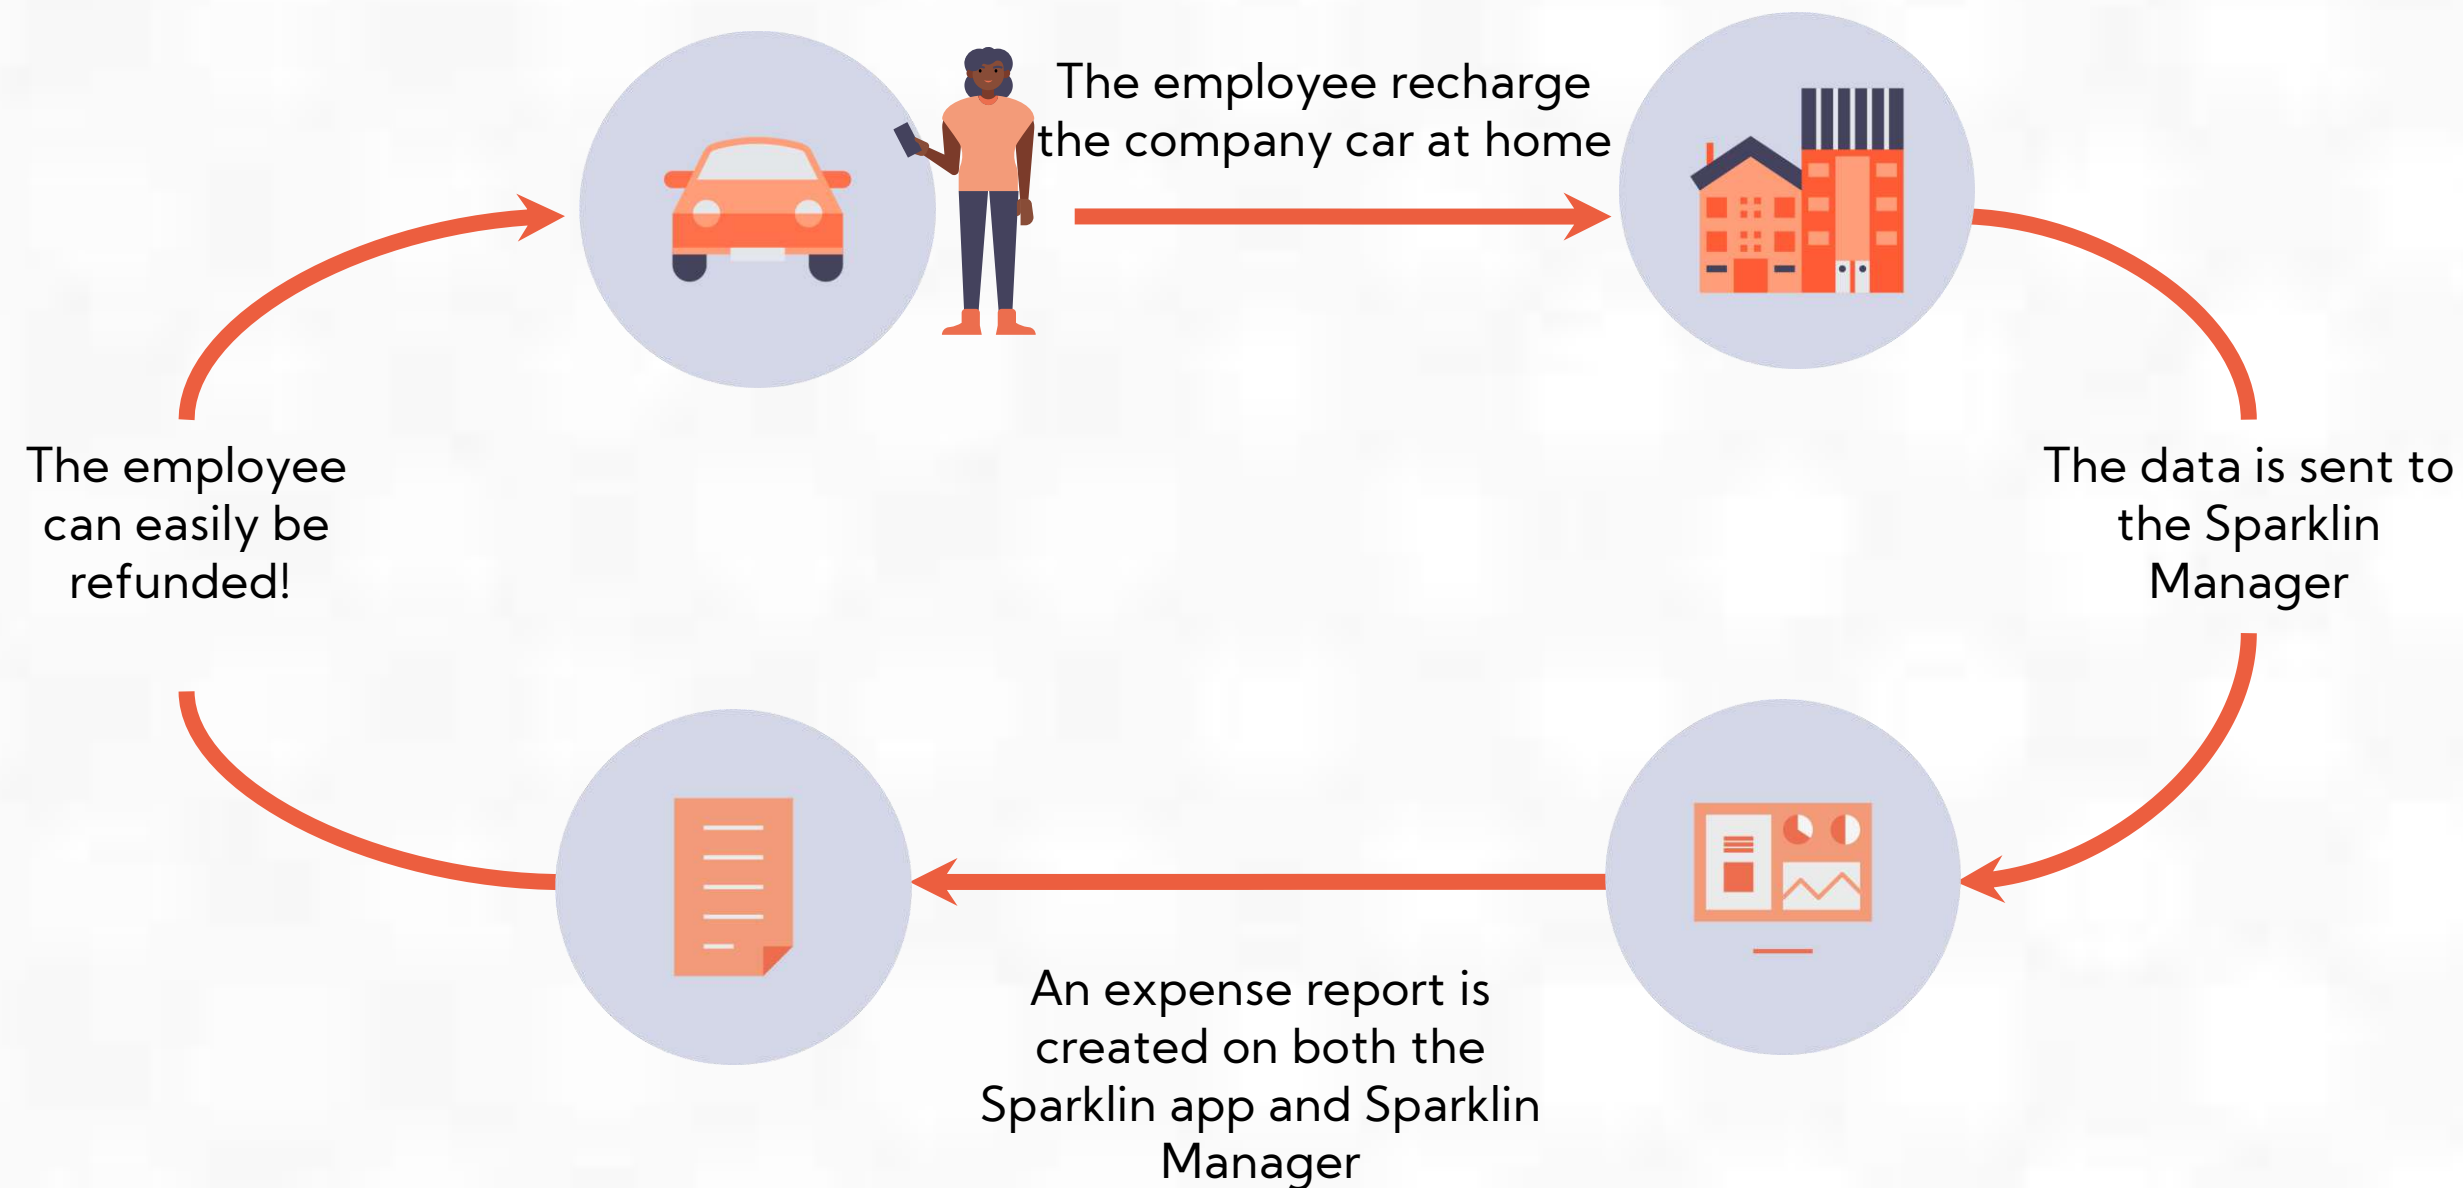

Sparklin App

Expense report

Charge your company car at home

ANNE AND ASHLEY SALES AGENTS

"Our vehicle recharging for business trips is provided by the company! We upload an expense report from our mobile app and we are reimbursed!"

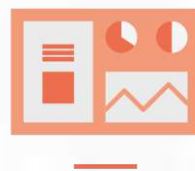

Remote activation

We take care of everything!

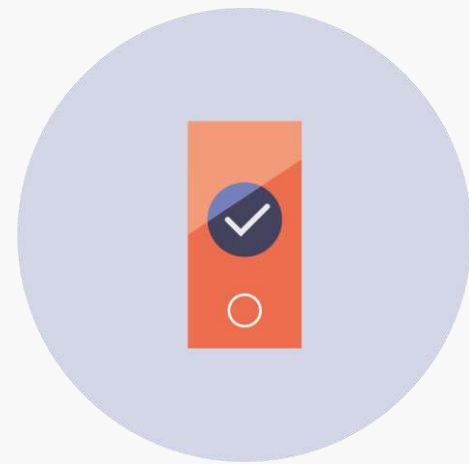

When installing your outlet, please take note of its Serial number, which will be essential for your **remote activation**

140 € HT
for the sockets owner

After a few minutes with our team, your sockets are now ready to be used and you can now find them on your Sparklin Manager!

A tiny socket with great advantages

Easy

- You just have to log in on the app!

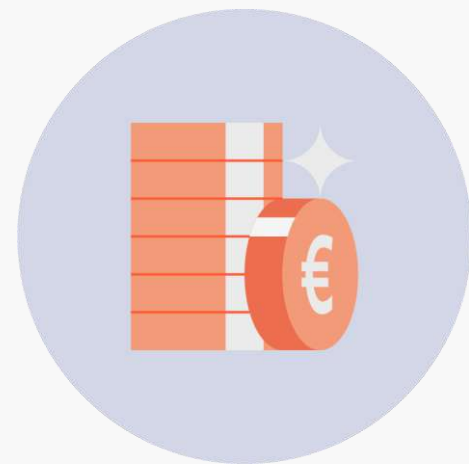

Secured

- All the data is anonymously registered which prevents unauthorised people to use your plug and electricity.

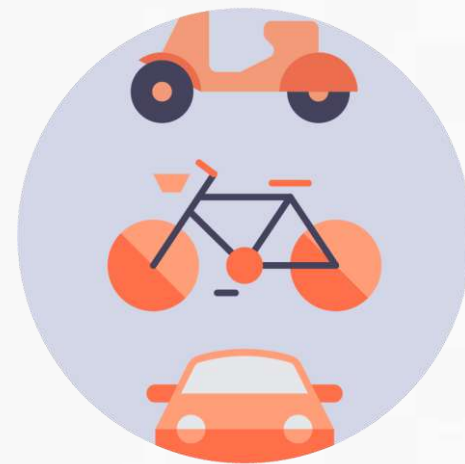

Robust

- Certified IK08 and IP66. The plug is waterproof and shock resistant.

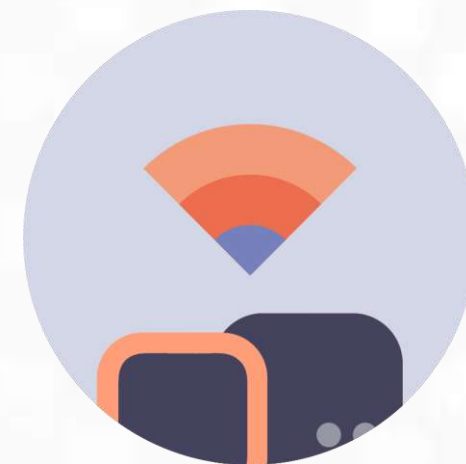

Economical

- We want both our product and services to be affordable for everyone.

It fits all

- For your e-bike on the sunny days and you electric vehicle on the rainy ones.

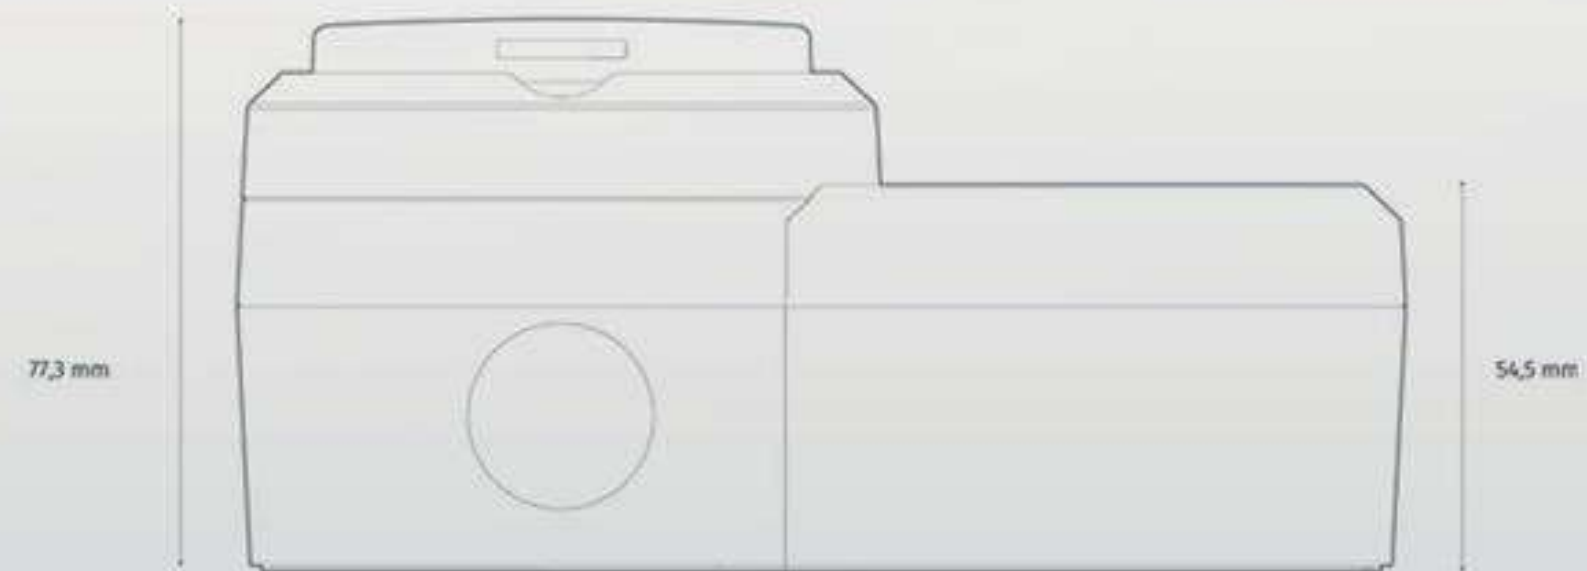

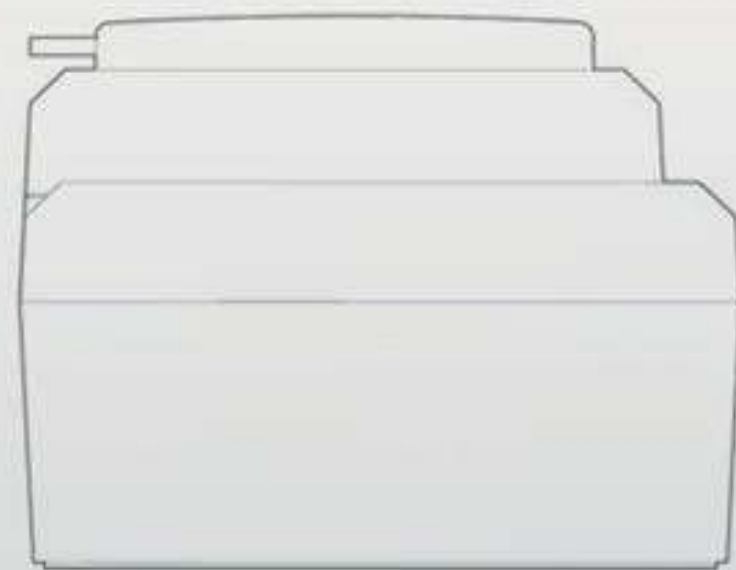

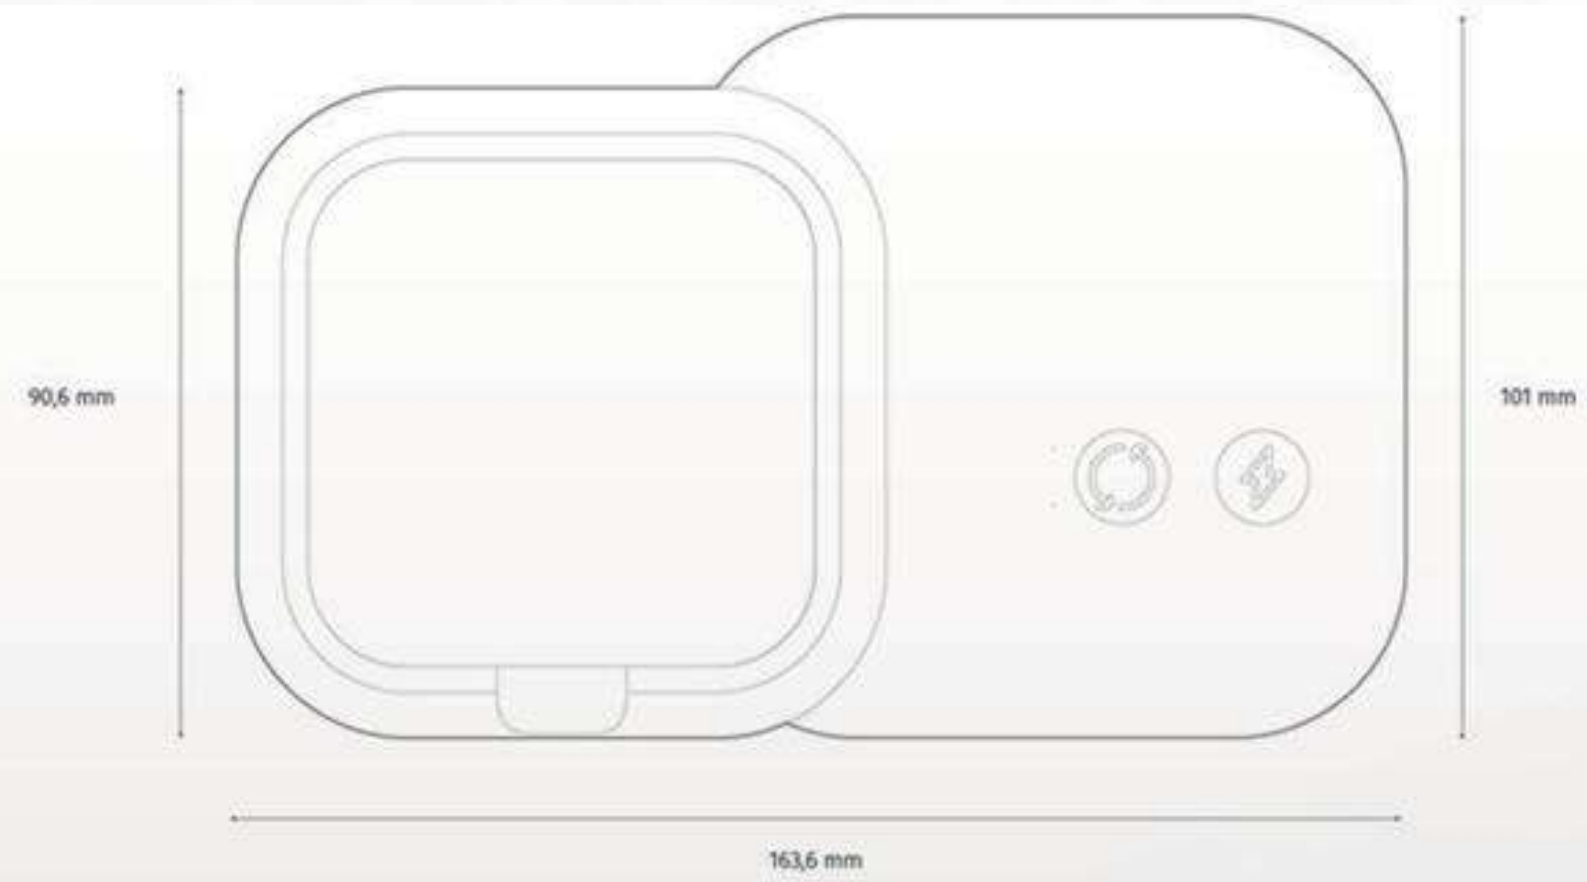

Connected

- WiFi/4G

Spark 1

General dimensions

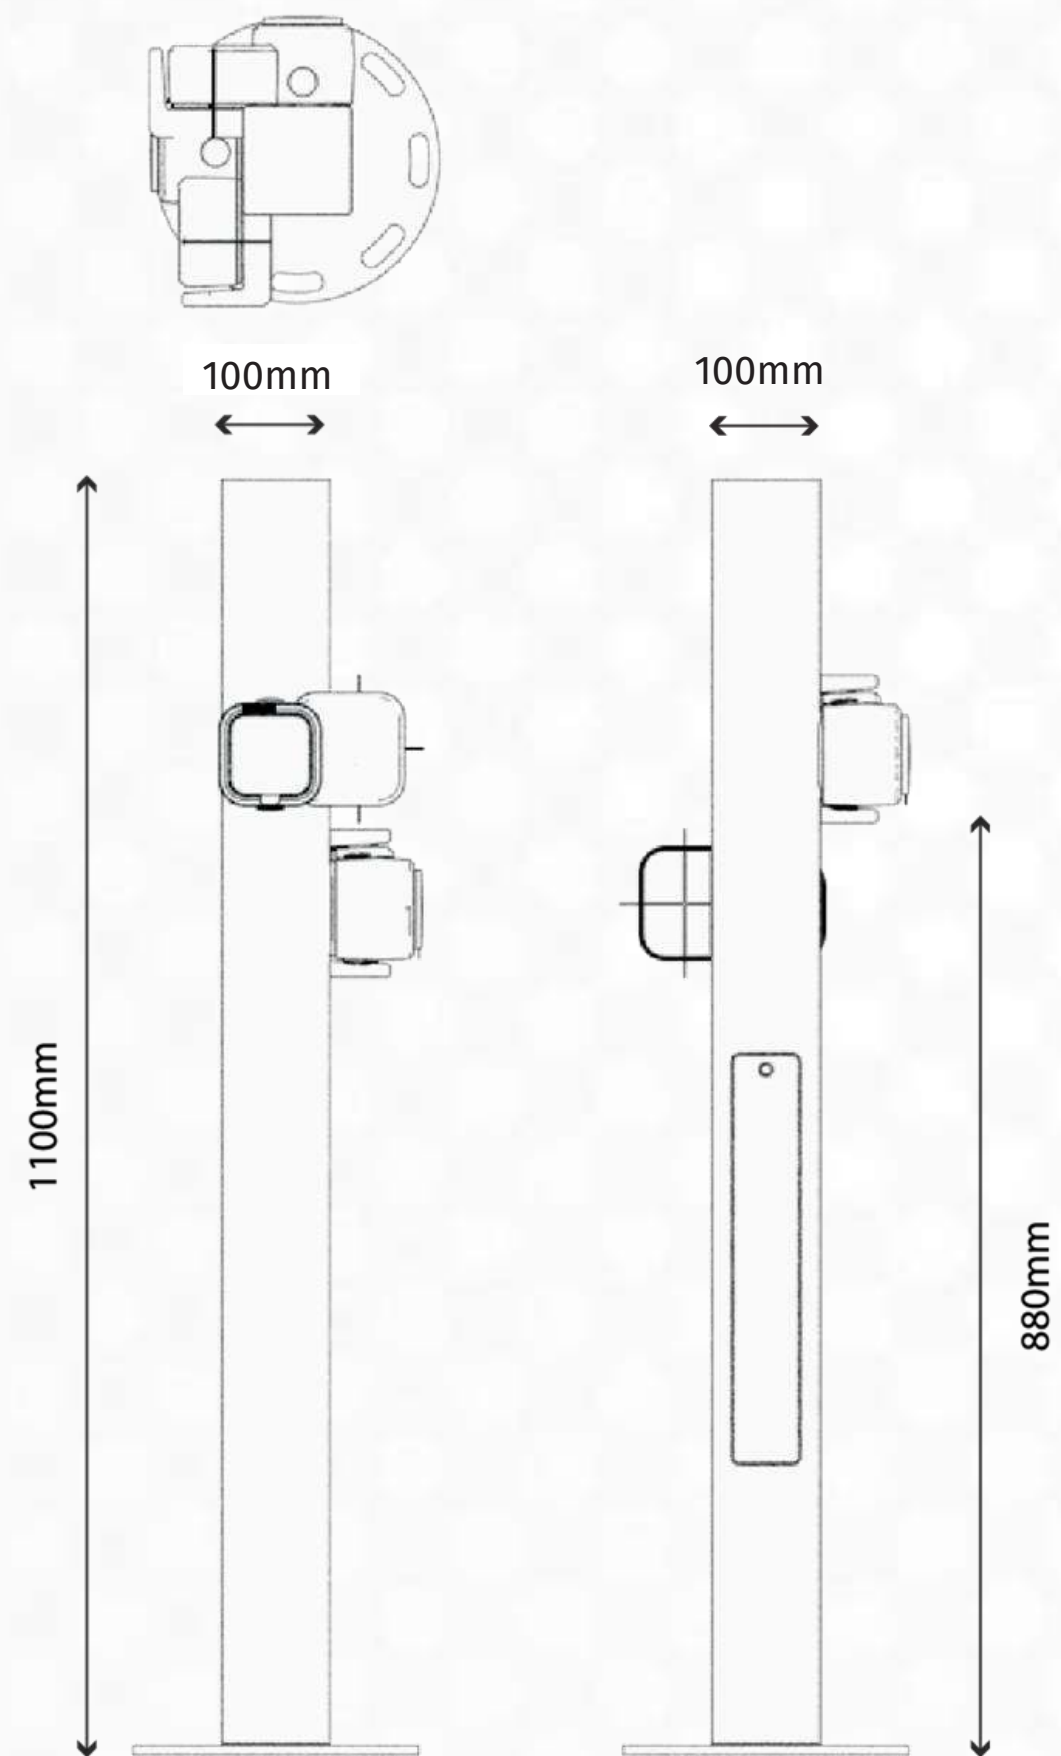

SPARKLIN POLE

General dimensions

Mounting bracket in sheet metal for slow charging connected socket, 230V, 16A.

The height of the socket fixtures is defined to allow access to users with reduced mobility.
